

The 5th Shanghai-Stuttgart-Symposium on Automotive and Powertrain Technology

October 21-22, 2021
International Conference Center Jiading Campus of Tongji University
Jiading, Shanghai

» ORGANIZERS

- Shanghai Automotive Wind Tunnel Center
- School of Automotive Studies, Tongji University
- Institute of Automotive Engineering (IFS), University of Stuttgart

» TOPICS

Aims to provide a platform for experts, professionals, researchers in the areas of "Automotive aero-dynamics and lightweight", "Autonomous Vehicle", "Fuel Cell Vehicle" and "Powertrain and Electrical Propulsion" technology.

Following four sessions will be planned for the symposium.

1 Vehicle design

- 1.1: Aerodynamic design I
- 1.2: Aerodynamic design II
- 1.3: Lightweight design and lightweight material

2 Smart and autonomous vehicles

- 2.1: Sensor technology
- 2.2: Intelligent control
- 2.3: Intelligent decision

» BACKGROUND

Organized by the Tongji University and the University of Stuttgart. More than 50 speakers are invited to present in the symposium, and more than 100 companies are planned to attend with minimum 300 delegates.

The event is managed by Nanjing Stuttgart Joint Exhibition Ltd.

3 Fuel Cell and Batteries

- 3.1: Hydrogen & Fuel cell
- 3.2: Automotive fuel cell system
- 3.3: Vehicular power source

4 Powertrain and Electrical Propulsion

- 4.1: Automotive internal combustion engines
- 4.2: Hybrid powertrain
- 4.3: Electrical drive systems
